## Baron illegal adoptions

**Document type:** [News paper article](#)

**Publication date:** 20 March 2004

"Baron illegal adoptions" - Valeriu StoicaSeria comunicatelor "empowered by the PSD" continue with the former president PNL, Valeriu Stoica, "former Minister of Justice Valeriu Stoica, supranumit by media baron illegal adoptions, should be light on this matter , Who held the first page of the newspapers a good period of time. Hundreds of acts of adoptions have gone in the period 1997-2000 from the archives of institutions, which are in direct subordination of Mr. Walters, which generated even intervention of the German Minister of Justice At that time, it asked the Romanian authorities, on a firm tone, notes about each adoption case in hand. " Communication ends with the request of the PNA's investigation Stoica, because "these questions are required, and PNL leader must answer allegations, that is not normal for just such a character model was now in the Champion of morality, without give off anyone. "

**"Baron of illegal adoptions" - Valeriu Stoica**The series of communiques "empowered by the PSD" continues with the former president of the PNL, Valeriu Stoica: "The former Minister of Justice, Valeriu Stoica, nicknamed by the media the baron of illegal adoptions, should shed light on this subject, which held the front page of newspapers for a good period of time. Hundreds of documents regarding adoptions disappeared in the period 1997-2000 from the archives of the authorized institutions, under the direct authority of Mr. Stoica, a fact that even generated the intervention of the German Minister of Justice at that time, who requested to the Romanian authorities, in a firm tone, informative notes about each individual adoption case". The communique ends with the request to the PNA to investigate Stoica, because "these questions are necessary, and the PNL leader must answer the accusations,

Politics open "

Ba to yours and never baron!

Electoral "baronia".

**-- "PSD Press Office" accuses**

The unofficial election campaign began and continues with mutual accusations between the PSD and the PNL-PD Alliance (DA), regarding the number and weight of the barons each has. Probably, there is great effervescence at the headquarters of the mentioned parties: they search in the archives, cut out the newspapers, make phone calls, carry out investigations, maintain permanent contact with the territory. The worst barons must be found, pointed at and, if necessary, reported to the PNA.

||

The PSD is tired of responding to the examples of cases of law changes by the local barons that the opposition has been beating for some time now. So he countered and came out, two days in a row, with several press releases, signed with a sense of responsibility "Press Office". Through them, I found out that PSD requests the National Anti-Corruption Prosecutor's Office to open files in the cases of Calin Popescu Tariceanu (PNL vice-president), Valeriu Stoica (PNL member, former Minister of Justice), Aristotel Cancescu, Ioan Ghise (Mayor of Brasov), Nicolae Vlad Popa and Radu Berceanu (PD deputy, former Minister of Industries). A day ago, PSD sent similar communiques, harshly attacking Gheorghe Flutur (PNL senator, head of the PNL local election campaign), Theodor Stolojan (PNL president), Paul Pacuraru (PNL vice-president) and Nini Sapunaru (PNL deputy). PNL Vice-President Gheorghe Flutur complains that the PSD started a campaign to check his activity from 1997-2000, when he was director of the Suceava Forestry Directorate, and of Suceava's liberal companies, and announced that he will report the abuses to the European Parliament is subject. And in other counties (in Vrancea, for example, as Nini Sapunaru told us), the liberals complain about the fact that the biggest pesedists send the Financial Guard to their companies for checks every month. Some of them are seriously thinking of moving their domicile to the Capital if the PSD will win all the local or general elections. "It can't

be like this anymore. We will go bankrupt if we keep presenting papers indefinitely", a local PNL leader told us.

**Corruption, combated "frontally, honestly and directly"**In parallel with the dissemination of incriminating press releases addressed to the opposition representatives, the Minister of Justice, Cristian Diaconescu, emphasized, during the videoconference with the prefects at the Victoria Palace, that "the problem of fighting corruption must be approached head-on, honestly and directly, so that it can be solved as soon as possible soon, considering that the signals coming from the citizens and those received from outside are somewhat consensual". the subject or an over-mediating of it, it is clear that there is a problem in Romanian society." We must be aware of the fact that, once both the citizens of Romania and the signals received from outside are somewhat consensual, from this point of view, we must approach this problem head-on, honestly and directly, and see how we can solve it as soon as possible", said Diaconescu, referring to the fight against corruption. In his opinion, the legislative and institutional framework is working and is effective, but it is time to speed up the implementation of these measures. Diaconescu announced that the Ministry of Justice, in collaboration with the other ministries, built an evaluation regarding what happened, starting with December 2001, when the Anti-corruption Measures Plan was adopted, "Based on the evaluation, it was established, in summary, which are the normative acts applied and to what extent they are functional, as well as to what extent they must be modified or adapted to the actual situation", announced Diaconescu. "Together with our partners, the World Bank, the European Commission as well as the Council of Europe, who are ready to help us, we will openly and transparently follow the way in which the measures are adopted and applied to solve once and for all this social dilemma, which sometimes it also becomes politics, related to the fight against corruption in Romania", emphasized the Minister of Justice.

**"Barons of the Opposition", in the view of BP of the PSD**Until the "social dilemma" is clarified, the Press Office (BP) of the Social Democratic Party "is authorized to publish" several press statements showing the CDR governors' blunders." The answer to one of the biggest scandals of corruption, from CDR governance, namely the SunOil business, is owned by PD vice-president, Baron de Dolj, Radu Berceanu. Hundreds of billions of lei and more favors to CDR leaders was the stake of this act of corruption, which seriously affected the Petrobrazi refinery- It's raining". The appearances in the central and local media are cited according to which "repeatedly the fact that the former Minister of Industries and Commerce, Radu Berceanu, participates in all kinds of international conferences, sponsored directly by the president of SunOil.

**"Baron of illegal adoptions" - Valeriu Stoica**The series of communiques "empowered by the PSD" continues with the former president of the PNL, Valeriu Stoica: "The former Minister of Justice, Valeriu Stoica, nicknamed by the media the baron of illegal adoptions, should shed light on this subject, which held the front page of newspapers for a good period of time. Hundreds of documents regarding adoptions disappeared in the period 1997-2000 from the archives of the authorized institutions, under the direct authority of Mr. Stoica, a fact that even generated the intervention of the German Minister of Justice at that time, who requested to the Romanian authorities, in a firm tone, informative notes about each individual adoption case". The

communiqué ends with the request to the PNA to investigate Stoica, because "these questions are necessary, and the PNL leader must answer the accusations,

**Tariceanu, accused of Power** Liberal Vice President Calin Popescu Tariceanu is increasing the ranks of those incriminated by the PSD: "We consider it necessary to remember the corruption scandals in which the media reported the involvement of the Citroën baron, Calin Popescu Tariceanu. The former Minister of Industries and Commerce succeeded the performance of linking its name to the more than dubious haste with which the state institutions began to purchase imported Citroën cars between 1997 and 2000. No less than 570 Citroën cars were bought with the money taxpayers, in a 6-month interval, by RomTelecom and SNP, companies that suddenly felt the need to enrich their fleet with cars worth over 19 million USD". "

**The capture of Brasov by liberals**"The PSD also draws attention to "the seizure of Brasov County by the liberal oligarchy. The PNL barons in the county, as the media has warned countless times, are luxuriating in huge villas, buying hectares of land in the hope of selling them at a higher price, allocating billions of lei from taxpayers' money for trips abroad, organizes auctions whose winners are close to the PNL or even avoids the auction procedure", according to another PSD press release. As an example, the case of the president of the Brasov County Council, "the baron of the local media, Aristotel Cancescu, who purchased, as reported by the press, the headquarters of the MIX trust at Uzina Tractorul, on the basis of the publicity given to it, spent approximately 2 billion lei for restoring the facade of the County Council building, although he knew that it belonged to the Ministry of Justice; created a special fund at his disposal from which he can distribute amounts as he wishes". In PSD's opinion, "another PNL baron of Brasov is the mayor Ioan Ghise, who in three years of office was out of the mayor's office no less than 200 days. Ioan Ghise is a special type of baron, which not every ordinary mortal can reach. Thus, in 2003, only one person managed to reach his audience. Regarding public money, the media noted how, two years ago, the Brasov City Council allocated one billion lei for the elaboration of a study on the decentralization of the heating system. Two companies participated in the auction, and the mayor sent an address to one to convince it to lower the offer by 100 million, in order to win the auction". it is shown in the PSD press release. The list of "Barons of Brasov" is expanded by Nicolae Vlad Popa, president of PNL Brasov. "He didn't miss the opportunity to sell the valuable period furniture from the party's headquarters, a fact that gave birth to a huge scandal in the liberal branch, reported by the press. Shortly after, he bought a Jeep Grand Cherokee", the Bureau mentions of the press of the PSD.**PNA - instrument of political struggle**PD considers the manner in which PSD understands to use the National Anticorruption Prosecutor's Office as an instrument of political and electoral struggle against its opponents to be unqualified. In a press release given yesterday to PD publicity, it shows that "PSD is distracting attention from the Iacubov scandal, launching dirty attacks on some opposition leaders using PNA as a means of intimidating and discrediting them. The PSD attacks confirm the fact that PNA was created in this very purpose of harassing the members of the opposition, the institution being under the direct authority of the Government", it is mentioned in the document. The Democrats say that, "with regard to the accusations brought to the PD deputy, Radu Berceanu, we informed the PSD that in the period 1999-

2000, when the SunOil file is under investigation, Radu Berceanu made himself available to the General Prosecutor's Office, on his own initiative.

**"PSD s-a autodepasit in scenariu delirant"** Liberalii au reactionat si ei la acuzele PSD, considerand ca acestea "demonstreaza ca PSD se afla intr-un moment tulbure al existentei sale politice. PSD a aspirat, timp de trei ani, sa obtina puterea absoluta in Romania si a sfarsit prin a fi corupt in mod absolut!", se arata intr-un comunicat de presa. PNL spune ca nu mai este un secret pentru nimeni ca PSD si-a bagat intreaga Romania in buzunar, fara sa tina cont de nimic altceva decat de propriul interes. "Panica actualei puterii in fata posibilitatii de a fi sanctionata de electorat pentru minciunile si furtul organizat din ultimii trei ani i-au determinat pe capii retelei pesediste sa reactioneze intr-un mod incalificabil, prin atacuri murdare la adresa PNL. Compunand pe banda rulanta comunicate de presa desprinse din filmele SF, celebra Directie de comunicare a PSD s-a autodepasit in elucubratii si scenariu delirant". PNL va atentiona oficialii europeni si opinia publica din statele membre ale Uniunii Europene in legatura cu gravele derapaje de la normele democratiei de care partidul de guvernament s-a facut vinovat in fiecare zi a mandatului sau. "In ceea ce priveste scenariile aberante inventate de PSD la adresa domnului Calin Popescu Tariceanu, Partidul National Liberal face urmatoarele precizari: companiile RomTelecom si SNP au achizitionat masini marca Citroen dupa ce mandatul de ministru al domnului Calin Popescu Tariceanu incetase; RomTelecom si SNP au facut aceste achizitii pe baza unei licitatii, in cazul RomTelecom fiind cumparate in numar egal atat autoturisme marca Citroen, cat si Renault; pe durata mandatului de ministru al domnului Calin Popescu Tariceanu, nici o institutie de stat nu a achizitionat autoturisme marca Citroen. Prin urmare, toate acuzațiile aduse domnului Calin Popescu Tariceanu sunt lipsite de fundament, ele facand parte din manipularea ostentativa a partidului de guvernament, menita sa otraveasca intreaga opinie publica romaneasca", se mentioneaza in comunicatul PNL. **Flutur reclama PSD la UE** In tabara opozitiei vicepresedintele PNL, Gheorghe Flutur, a declarat, tot ieri ca in ultimele zile a fost inceputa o campanie de verificare a activitatii sale din perioada 1997-2000, cand a fost director al Directiei Silvice Suceava, si a firmelor liberalilor suceveni si a anuntat ca va sesiza Parlamentul European fata de abuzurile la care este supus. "Voi adresa o scrisoare Parlamentului European pentru a arata tot ceea ce se intampla si mi se intampla ca senator al Romaniei, care a facut cunoscute acte grave de coruptie in speranta ca lucrurile se vor indrepta si Romania se va redresa din derapajul spre Uniunea Europeana", a declarat Flutur, intr-o conferinta de presa, conform Mediafax. Senatorul liberal a acuzat PSD ca "a dat startul la fabricarea de dosare, in special fata de liderii liberali, apreciind aceasta actiune drept politie politica si un atentat la democratie. "Acesti oameni pun in pericol democratia si voi informa toate forurile europene in legatura cu aceasta situatie. Sunt lucruri foarte grave, incercam sa puna pumnul in gura opozitiei. Cred ca democratia este confiscata de PSD in judetul Suceava", a mai spus vicepresedintele liberal.

**SAPARD cu cantec la Suceava** Vicepresedintele PNL, Gheorghe Flutur, a declarat cu aceasta ocazie ca problemele nu se gasesc in ograda sa, ci a PSD. El a spus ca mai multe lucruri de modernizare a unor drumuri comunale, executate in judetul Suceava si finantate prin programul SAPARD. Flutur a reclamat calitatea lucrarilor de executie pentru modernizare unor drumuri comunale prin programul SAPARD, aratand ca in comuna Galanesti nu au fost realizate santuri pe marginea cailor de

acces, iar la Siminicea a fost sesizata Inspectia in Constructii din cauza slabei calitati a lucrarilor. El s-a aratat surprins ca cei doi directori din Consiliul Judetean Suceava care s-au aflat in conflict de interese privind derularea Programului SAPARD au fost dusi la mai bine. "Cei doi directori care au facut de ras judetul Suceava au fost detasati la mai bine. O astfel de sanctiune este foarte interesanta. Domnul Dobrea Climec a fost detasat la Regia de Drumuri, iar domnul Veleanu la serviciul judetean eco-term-gaz, care va gestiona fonduri de peste doua sute de milioane de euro pentru proiectul de reabilitare a utilitatilor din judet", a spus Flutur. Potrivit unui raport elaborat de Corpul de Control al Guvernului in urma unei anchete privind derularea programului SAPARD in judetul Suceava, Radu Adrian Veleanu, directorul general al Directiei generale tehnice din Consiliul Judetean Suceava si adjunctul sau Niculai Dobrea Climec au verificat toate proiectele SAPARD intocmite de firmele ai caror actionari erau sotiile lor, Rodica Dobrea-Climec si Violeta Veleanu. Potrivit raportului, SC Diafarm SRL a intocmit 14 proiecte SAPARD, in valoare totala de 235.425 de euro, referitoare la drumurile din zonele rurale. Actionarul majoritar al SC Diafarm SRL este Rodica Dobrea-Climec (avand 92,42 la suta din actiuni), iar proiectele au fost verificate de sotul ei, Niculai Dobrea-Climec. Pentru verificarea proiectelor, Dobrea-Climec a fost platit cu 22.738 de euro. In celalalt caz, SC Sarom Impex SRL - al carei unic actionar este Violeta Veleanu - a intocmit trei proiecte SAPARD, in valoare totala de 70.738 de euro. Doua proiecte vizau canalizarea cu apa in zonele rurale, iar al treilea alimentarea cu apa in acelasi mediu. Cele trei proiecte au fost verificate de Radu Adrian Veleanu, care a primit 1.380 de euro pentru serviciile prestate. Corpul de Control al premierului a dispus ca aceste concluzii sa fie transmise Agentiei SAPARD si Consiliului Judetean Suceava, care ar urma sa ia masuri in acest caz. In plus, aceeaasi institutie cere ca raportul intocmit sa fie analizat de Oficiul de Lupta Antifrauda al Comisiei Europene si Parchetul National Anticoruptie. Agentia SAPARD a decis sa reia licitatiile pentru desemnarea persoanelor care vor verifica toate cele 16 proiecte din judetul Suceava la care au fost depistate conflicte de interese. In judetul Suceava, 58 de consilii locale au depus cereri de finantare pentru proiecte de reabilitare a infrastructurii prin programul SAPARD, in valoare totala de 46,6 milioane de euro, din care pentru 37 au fost semnate deja contractele de finantare, iar pentru 24 a fost organizata licitatia pentru desemnarea constructorului.

**Bilantul lui Sapunaru** Deputatul PNL de Vrancea, Nini Sapunaru, a realizat si el un bilant al "celor patru ani de coruptie si abuzuri in Vrancea". Sapunaru aminteste unele din evenimentele controversate, "cu iz de coruptie si abuz, petrecute in ultimii patru ani in judetul Vrancea". Aceste evenimente i-au avut ca actori principali pe presedintele CJ Vrancea Marian Oprisan si pe prefectul de Vrancea George Baesu. "In Vrancea exista la un moment dat o presa libera, cu puncte de difuzare organizate si civilizate. Deranjat de faptul ca unii ziaristi s-au comportat profesionist si au scos la iveala afacerile necurate ale conducerii PSD, care a ordonat distrugerea unor chioscuri de difuzare a presei. Datorita acestei atitudini dictatoriale, ziarele se vand acum pe strada si in intersectii, la fel ca acum un secol. Libertatea presei in Vrancea este o gluma amara", arata Sapunaru in cadrul unui comunicat de presa. La acest caz adauga "cele mai mari tunuri care reprezinta afacerile pe bani publici". El face referire la "contracte de zeci si sute de miliarde au fost castigate in urma unor simulacre de licitatii de catre firma AISPA STAR, patronata de controversatul Cornel Prunache". Lista continua cu manevrele dubioase in folosul personal al PSD-ului local si cu faptul ca "in patru ani de conducere a judetului, PSD a

terrorizat mediul de afaceri vrancean prin initierea programului de sponsorizari fortate". El spune ca "pentru ca oamenii de afaceri sa fie intimidati, contractele sunt inmanate de reprezentanti ai Directiei de Finante sau ai Garzii Financiare. Aceste contracte trebuie onorate obligatoriu". Sapunaru puncteaza si "incercarile de spoliere a agriculturii vrancene de catre prefectul George Baesu, care a cerut imperativ producatorilor de struguri vranceni sa-si vanda productia numai catre cumparatori din judet. Din intreaga afacere ar fi avut de castigat intreaga clientela politica a PSD Vrancea".
