International Social Service

2nd

International Conference on Adoption, New

Delhi, 8-10 October 2007"

The agenda of this guidelines can't be clearer. Isn't it?and this presentation by ISS was held even in Delhi.

Totally scary and crazy.

What worries me a lot, is that SOS Children's Village, also pushes a lot for this guidelines.

Part of the BCN international is "CARE"-

SERA is now part of CARE.

Scary... just scary.

Dear (10)(2e),

Thank you for your mail

I just needed a request to write a letter, which I already drafted to (10)(2e) See next mail.

I told (10)(2e) Have you had contact with (10)(2e)? Or is it a coincidence you are writing me?

Any childtrafficking we will fully object to it. I read the court order in which she was convicted.

There is a problem now, because the (10)(2e) has been contacting the parents all these years. They actually managed to give a thought to the children that they would find parents in another country, which I personally consider very, very wrong...

There is a holiday here, next Wednesday, I will ask the director of the organisation to sign the letter and we will send it by FEDEX to you or (10)(2e) please let me know.

I have also seen the (10)(2e) court order.

I have sent the orders to our Ministry of Justice.

Now, what about the children?? We have to do something. I understand you fight this, because, this will open up a system which proved to be very wrong, as far as the information I got.

Do you know if (10)(2e) went into appeal and got a clean chit in these years?

Dear (10)(2e)

It has come to our notice that (10)(2e) tried to send two children, (10)(2e) to the Netherlands .

These children were initially proposed via your organisation to Dutch adoptive parents.

(10)(2e) was convicted for child trafficking earlier. I, alongwith (10)(2e) have been the petitioner in many cases, including the ones for these two children, where we argued that the children had been trafficked and should not be sent abroad.

I have filed a petition in the High Court recently against an order by Justice (10)(2e) allowing these children, after similar prolonged litigation in the higher courts, (High Court bench and Supreme Court) where this was not allowed. If you can give me the exact nature of your organisation's stand and history of these particular two children, I would be grateful. Kindly mail your letter to:

(10)(2e)

as she is helping to organise the case materials.

YES SHE LET YOU IN , AND NOW SHE LET (10)(2e) OR I DO IT> IT COMEs ON MY BACK AGAIN>

Yes I was already writing an e mail to (10)(2e) before you wrote this, that I would not do any research, that SA is not my contact that I did not even see the Evidence, that (10)(2e) had shared with with (10)(2e).

(remember I was on the phone)

But I stopped writing and did not send the E mail, because like this I do not win anything either.

And to be honest I do not even want to get into this, as long as (10)(2e) is there. For me it gets so complicated.....I do not know about SA .

Your last mail with the newspapers clippings about SA kept me awake a long time...I juts do not understand how this can be possible!

The earlier (10)(2e) (10)(2e) who is now only in project aid and left adoption, seemed to me as a person who would not do such a thing. I know her because she has come to the Netherlands quite a few times.

I was ony questioning her then if she does pro life counseling or if she gives the mothers also good information about abortion.

And she said she does, that if a mother decides for an abortion that she respects that. And I asked if she also directs woman to abortion posibilities. She said if they want we do.....

But this was only a short talk . Her projectinvolvement with aids related children is excellent actually.

And the woman (10)(2e) that took the place in adoption matters I met, but never talked to her. Anyhow, (10)(2e) told me that relationship with SA really lost quite a bit of its trust since this was known about the drug addict thing.

A thing that puzzles me and I wanted to write you about already was:

The thing that was said to (10)(2e) that the man would be using drugs was only a said/spoken information, was not it? I do not recall an E mail of (10)(2e) about this fact? I thought (10)(2e) had spoken to her on the phone and then (10)(2e) might have mailed you.....

But in the newspaper is written that (10)(2e) wrote an E mail, but I think she did not?? Then it fits if (10)(2e) says she can not recall a mail about this?
I just do not remember....

We zetten dit vrijdag ook op de agenda. Ik moet
eea op kantoor nakijken en wat mensen spreken om eea precies toe te lichten.
Maar alvast enige informatie:

Er zijn al wat langer geruchten via Internet dat
TLC betrokken zou zijn bij kinderhandel. We hebben **een paar maanden geleden alle ouders die uit

geïnformeerd i.v.m. deze geruchten. We hebben het Ministerie van Justitie
verzocht om de adoptieprocedures en achtergronden van al deze kinderen (
ik denk 12, maar moet het op kantoor nakijken) mee te nemen in hun onderzoek
(Meiling, rol Justitie en India algemeen). De ouders zijn hiervan op de hoogte
gesteld. (10)(2e) heeft alle ouders persoonlijk geïnformeerd en ik dacht dat er ook
nog een brief naar hen is gegaan. Maar dat kijk ik na.

CARA heeft ons niet geïnformeerd over de situatie

We hebben destijds (2001,2002 en 2003) (10)(2e)

niet gelukt, in 2003 zijn we hiermee gestopt. De kinderen om wie het gaat

zitten nu nog in het kindertehuis.

Verder moet ik in de papieren duiken en

navraag doen bij ze en gene om het exacte verhaal te kunnen vertellen. Dat komt

vrijdag.

Dear (10)(2e) (10)(2e)

Maybe it makes sense if the Joustra Commission investigates what dutch officials may have done wrong.

Personally I don't see much sense in the Joustra Commission investigating this.

All what needs to happen, is that the Minister acknowledges that this happened and request the Openbare Ministerie to open a broader criminal investigation extending to India and into the conduct of (10)(2e) and possible involvement of dutch officials.

As part of it the OM can request via letter rogatory assistance from the indian criminal investigation agency CBI.

The adoptive families, the adopted now adult children, can request their cases to be investigated by the OM.

The Indian criminal investigation agency CBI can then verify the documents and look into each case.

Additionally the Ministry can fund ACT / ARC and we can equally assist the families and adoptees with their searches and hopefully the reunions.

We are also in a position, to push the Indian government to set up a local DNA Database, so that even cases where the paperwork was totally concocted can be solved.

It's all not rocket science.

It's just obvious that since now almost 14 years the ministry of justice has no interest in the fact that any truth comes out.

Just a total cover up.

For the rest of India, answers on whether the adoptions were conducted in line with the existing legal framework can only be found, if one is able to trace back the indian families.

You cannot even do it from the desk in the Netherlands.

The Wereldkinderen Partners are uncooperative. That is a big fight we fight since many years.

Though we solved some Dutch cases, and can provide you detailed case studies on request.

First and foremost ACT needs funding to be able to fight it through in India and assist the adoptees.

In general you could investigate for India from the Desk in NL, whether Wereldkinderen has complete files.

You will find out, Wereldkinderen hasn't.

Wereldkinderen doesn't have:

Birthcertificate

Petition filed in the Bombay High Court,

Annexures to the petition such as:

Relinquishment paper

Or abandonment declaration of Juvenile Welfare Board.

Here definitely the ministry of justice as well as the foreign affairs ministry which issued the visa's , have done very wrong. This failure effectively erased the identity of of most indian adult adoptees and makes searches so very difficult. The Dutch state violated the rights of the children and their right to know their origins, systematically.

To verify my claim is very easy. Just check randomly 100 files of Wereldkinderen. – which likely they will not provide and cite privacy reasons.

The adoptees ought to be compensated financially for this. A significant lump sum.

Sincerely

Zoals u weet heeft de minister voor Rechtsbescherming een commissie ingesteld die onderzoek doet naar de rol en betrokkenheid van de Nederlandse overheid bij mogelijke misstanden die in het verleden bij interlandelijke adopties hebben plaatsgevonden. De commissie wordt geleid door de heer mr. T.H.J. (Tjibbe) Joustra en bestaat verder uit mevrouw prof. dr. B.A. (Beatrice) de Graaf en de heer mr. G.J.H. (Bert-Jan) Houtzagers.

here is another blog written by our founder about the issue.

The Netherlands is pretty much involved in it.

One by way of the Hague Adoption Convention itself.

Geachte (10)(2e)

Zoals u weet heeft de minister voor Rechtsbescherming een commissie ingesteld die onderzoek doet naar de rol en betrokkenheid van de Nederlandse overheid bij mogelijke misstanden die in het verleden bij interlandelijke adopties hebben plaatsgevonden. De commissie wordt geleid door de heer mr. T.H.J. (Tjibbe) Joustra en bestaat verder uit mevrouw prof. dr. B.A. (Beatrice) de Graaf en de heer mr. G.J.H. (Bert-Jan) Houtzagers.

Dear (10)(2e)

this was broadcasted yesterday in Romanian TV

(10)(2e)

The Netherlands is faced with the same problems and the Dutch agencies have been equally involved in child trafficking. Further the Dutch were crucial in developing the Hague Adoption Convention and in getting the system in Romania up and running which the EU cracked down.

Moreover the Dutch government fails to protect Whistleblower (10)(2e). Given that (10)(2e) is in the position to effectively stop the punishment of (10)(2e) this is dispicable.

We have here now a situation where the Dutch Ministry of justice, has set up a commission for investigation, but the real issues have been kept excluded.

Dear (10)(2e)(10)(2e)

Thank you for sharing your concerns with us. I am pleased to receive this kind of input, since it allows alternatives for rethought. As you know, we have already reconsidered the position of Fiom in our first proposal. Evaluation and reflection on the plans would in the end be done by the Ministry of Justice, and we also decide about the spending of the budget. We think that it is necessary to have an organization to coordinate all the plans, and also to give help - where needed - when it comes to setting up a plan. Your e-mail suggests that you agree with this. However, in your opinion, Fiom is not the right party to do this. I still believe that Fiom, as an independent knowledge institute, is the organization best able to take on this role in the process. In my view, the cooperation with Fiom is aimed at the facilitation of knowledge exchange whereby roots searches may be improved and initiatives in the same countries get more aligned. In this sense, it is not a matter of competition. We are willing to be flexible when it comes to deciding what exchange of information between the organizations and Fiom is actually needed. I hope to have informed you sufficiently for now. It is my intention to send a letter with more information about this hopefully in the next week.

Kind regards,

Onderwerp: Roots Searches / FIOM

Dear [redacted] (10)(2e)

yesterday i had a very good phone conversation with [redacted] (10)(2e) and we are very glad to see that there is finally a solution in the interests of the adoptee's in sight.

However after some reflection about the phone call, we remain very concerned about the role of FIOM, even if they assist us in writing the project proposals.

The FIOM is / was funded by the ministry of justice. Also for searches. The ISS network to which the FIOM belongs is involved in searches. So to speak we are "competitors".

Sharing details about our organisation and working methods as well as finances with a competitor cannot be right. The FIOM has a clear conflict of interest and the ministry should not force us here to share everything with them.

We of course appreciate assistance in writing the proposals.
The ministry of justice could well hire an independent consultancy firm for this purpose.

In any case, it is the role of the ministry to set the terms of reference.
For our organisation i can state, that if you set appropriate terms of reference, we will be able to hand in a proper proposal accordingly.

Dear Minister Dekker,

i didn't receive yet an acknowledgment of receipt nor a reply to my below email.

In the Nieuwsuur program was one adoptee featured, (10)(2e) who deserves answers to her questions. So do many others.

We can assist her and others in finding those answers.

(10)(2e) promised last week that a letter regarding the funding for searches will be sent out "next week". This has not happened.

Though we appreciate that (10)(2e) now essentially took the FIOM out, but we remain very concerned that the FIOM is still in for assisting with the project proposals.

We believe the FIOM / ISS has a to huge conflict of interest to be involved at all.

The delays lead to much suffering and confusion of adoptees.

Please ensure that funding is made available at a very short notice.

Too much time has already passed.

Dear Minister Dekker,

it has come to our notice that the Joustra Commission will not look into issues and the trafficking regarding adoptions from India.

Further we learned that your ministry plans to give all the funding to the FIOM only.

0711

In the light of the motion passed by the dutch parliament on 4 september 2019 which also calls on the Dutch government to solve the issue of childtrafficking, and the below communication, I request you to grant ACT/ ARC funding.

We assisted so far 48 adult adoptees with re-establishing their original identities.

We get every day requests from adoptees for assistance. Often from very young adoptees, who don't necessarily even have the financial support of their adoptive parents.

Obviously the lack the financial resources.

Therefore I propose the following very practically orientated.

The Ministry of justice should fund us with 150.000 EUR for 2020.

In return we will take up cases cost free for the adoptees or adoptive families on a first come first server basis.

End of 2020 we together evaluate this project and likely would in the mid-run not more than a steady funding of 300.000 EUR per year to be able to cost free solve cases.

One of the obstacles we faced to assist adoptees appropriately was now this week removed (totally on our expenses) by the High Court of Mumbai.

In fact this obstacle had been put in the CARA Guidelines in 2010, by the Partner of Wereldkinderen to stop our work.

That at a time where we closely cooperated with Wereldkinderen.

HC relief for Swiss national trying to trace her biological parents in India.

<https://www.hindustantimes.com/india-news/hc-relief-for-swiss-national-trying-to-trace-her-biological-parents-in-india/story-ZSIlnccqXQj0OHXclNvfoUN.html>

We are officially allowed to conduct searches in India.

There is no time to waste. Adoptees suffer a great deal. Families in India suffer.

Relatives die, Trails go cold.

This whole issue drags on too long. FIOM / ISS has not solved any cases in India.

The indian partners of the dutch agencies, do only selectively help adoptees.

We work on several dutch cases, where i.e. Bal Anand / denies unlawfully the adoptees access to their adoption records and denies them the right to know their identity.

Kindly let me know at the earliest the way forward.

Dear Minister Sander Dekker,

In 2007 Netwerk TV exposed the „Rahul “ scandal.

Minister Hirsch Balling ordered an investigation. However the agency Meiling was cleared, the ombudsman couldn't find any fault with the administration.

Secretary of State Mr. Teeven, also informed the parliament only rudimentary about the fact that the child was indeed kidnapped.

Now after 12 years it is no longer deniable.

<http://www.againstchildtrafficking.org/2019/06/kidnapping-for-adoption-proven-guilty-as-charged/>

We request you to take the appropriate actions and initiate a broader investigation into the adoptions from India. How many of the other 50 children from Malaysian Social Service may have been kidnapped ?

In particular your ministry should assist the indian family to at least meet their now adult son once.

Likewise your ministry should request the OM to initiate a criminal investigation into the functioning of Meiling and especially of (10)(2e)

(10)(2e)

We have documents, which clearly prove, that the adoptive parents paid twice the adoption fee. That with knowledge of Meiling. (can be made available on request)

The full file can be accessed here:

https://drive.google.com/open?id=19N01w37OHsc_Xjrnt224N9rUnDzjRmzT

Further in 2007 we provided dutch authorities with extensive evidence of gross malpractices if not outright criminal activity regarding adoptions from India.

Your ministry has so far ignored this completely.

I already informed your ministry on 6th June, but it seems to be ignored. They don't even ask for the full information.

The email communication is attached below.

Kindly confirm receipt of this email and the file and inform us about the actions taken.

Dear [redacted] (10)(2e)

The Inspectorate for Youth Care has completed the investigation regarding the adoptions from India by means of MSS during the period 1995-2002 by Stichting Meiling. The report will be published on our website, www.inspectiejeugdzorg.nl, in november, I expect.

We have used the information you supplied in so far the contents of the files and CD's you had selected and of your mails were relevant to our investigation. As you know, we investigated, as requested by the Ministry of Justice, how Stichting Meiling has checked her contact MSS in the above mentioned years and how Stichting Meiling reacted when news of alleged illegal acting by MSS spread. The inspectorate has not investigated any individual case.

On behalf of (10)(2e), the project manager of the investigation of the Inspectorate for Youth Care into the activities of Stichting Meiling, I thank you again for coming to our office, for handing over the two folders and CD's and for clarifying the contents.

We would like to inform you that we have handed over the information you gave us to the Ministry of Justice ((b)(2)(f) (10)(2e)), as we think it might be relevant for other investigations the ministry has commissioned or will be commissioning in the future.

As far as I know, the name of the facilitator is [REDACTED] (10)(2e) He is Indian, based in Agra and handled the Nepal Program for FFY, for ICCO and the Spanish. He also did Indian adoptions of course as well as Cambodia.

He is also facilitator for the US agency Crossroads.

[REDACTED] (10)(2e) probably knows him, as he also facilitated adoption from Precious Moments in Hyderabad and funnelled money through a separate trust to the organisation run by the Director General of Police's wife [REDACTED] (10)(2e), who was charged with Childtrafficking.

[REDACTED] (10)(2e) adopted her own kids from there.

Hallo ihr Lieben!

ich glaube es geht gar nicht so sehr ums Geschäft, sondern einfach ums

Überleben des Vereins und darum, dass sich natürlich niemand so gerne Scheitern, Schuld oder Fehler eingesteht.

Und family4 you hat viele Fehler gemacht, unglaublich viele. Dass sie sich für die Zukunft vorgenommen haben professioneller zu arbeiten glaube ich aufs Wort.

Nur: es kennen sich die österreichischen Jugendämter und Beamten wirklich erschreckend wenig in den Ländern -aus denen adoptiert wird - aus.

so kann family viel erzählen, viel in ihr Licht rücken, es gibt ja auch gute Vernetzungen, und kann dabei Äthiopien als Adoptionsland für Österreicher killen, und auch bridge de facto kalt stellen, einen Verein, der defacto NICHT in einem Einzelfall so drastisch versagt hat wie family.

Mir würde es an Stelle familys mit dieser Strategie nicht so gut gehen, ich würde mich ziemlich mies fühlen.

Und (10)(2e) Äthiopien wird von den meisten westlichen Ländern sehr wohl als akzeptables Adoptionsland gesehen.

Prinzipiell finde ich aber gut, dass hohe Sicherheitsstandards in Adoptionen in Zukunft in Ö von den Behörden festgelegt werden. Hier muss man allerdings vermutlich manchmal ein bisschen zwischen den Kulturen dolmetschen, weil in

einem Entwicklungsland wird dir niemand eine gültige Geburtsurkunde neben das Findelkind legen.

Noch einmal Für viele unrichtigen Angaben im betroffenen Fall ist der Mitarbeiter von family verantwortlich, er hat mit Waisenhäusern zusammengearbeitet, die nicht so korrekt arbeiten wie die großen religiösen Waisenhäuser mit denen bridge arbeitet- family hat ihm keine Vorgabe gegeben, mit welchen Waisenhäusern er arbeiten darf, weil sie sich im Land nicht gut genug ausgekannt haben, um diese Vorgaben überhaupt machen zu können.

In einem Dritte-Weltland hängt viel am Waisenhaus, mit dem zusammengearbeitet wird. Zockt es eifrig ab von den Adoptiveltern oder finanziert es sich anders.
z.B. über große Orden?

family hat hier schon beinahe fahrlässig agiert. Der Mitarbeiter hatte offenbar keine guten Kontakte zu genau den seriösen großen Waisenhäusern mit denen bridge arbeitet und family hat es nicht überprüft und kontrolliert und ihm blind vertraut.

Der Höhepunkt der Frechheit war wohl, dass von einer -eh der letzten Gruppe von Adoptiveltern aus Äthiopien -300 Euro pro Kind mitten im Adoptionsprozess nachverlangt wurden, weil die Kinder angeblich aus einem Waisenhaus im Süden nach Addis gebracht wurden. - für den Transport - Diese Eltern haben übrigens Adoptionsverträge mit Waisenhäusern in Addis! Wenn Kinder vom Land ins Waisenhaus nach Addis kommen und dann adoptiert werden, ist das ansonsten in

Äthiopien in keinster Weise üblich, dass hier Transportkosten den Adoptiveltern nachverrechnet werden!

Aber auf meiner family-Fehler-Liste ist das einer der geringeren.

Wirklich heftig finde ich dass der nepalische Mitarbeiter in Kambodscha pro Adoption ein Erfolgs-Honorar von 6000 US-Dollar bekommen hat (auch das Honorar des äthiopischen Mitarbeiters war überhöht, aber nicht so drastisch).

Also ich hoffe die MA11 wir in Wien in Hinkunft genauer darauf schauen was family macht z.B. in den Ländern Ecuador und Philippinen.

Aus den Philippinen kommen hauptsächlich Buben über 2 Jahren zur Adoption. Wenn ein Kind bereits über 2 Jahre in einem richtigen 3.-Weltweisenhaus war, kann es schwerst hospitalisiert sein - ich kenne so einen Fall eines indischen Mädchens. Werden die Adoptwerber auf so etwas vorbereitet sein oder treffen hier wieder falsche, auch sehr naive, Vorstellungen auf schwierige Kinder und die nächsten Abstürze sind vorprogrammiert?

Ist das Adoptionsprogramm dort tatsächlich so sicher, dass es man es vom Schreibtisch in Wien aus betreiben kann?

Meine Freundin erzählt mir dass es auf den Philippinen unbeschreiblich grausame Sitten und Kriminalität gibt. Es sei gar nicht nötig zu adoptieren, man könne sich jederzeit ein Kind von einem Arzt, der in Amerika seine Lizenz verloren hat, kaufen, der bestätigt dann, dass man es selbst geboren hat.

Soviel zu den anderen sicheren Adoptionsländern, die family im Programm hat.

Aber das ist ja dann die Sache der Stadt Wien.

Einen weiteren anderen Kritikpunkt an family habe ich insofern, als in der Länderbetreuung noch immer vereinzelt Mitarbeiterinnen beschäftigt sind, die keinerlei Ausbildung in der Arbeit mit Menschen (Sozialarbeit oder Psychologie) haben. und die sich dementsprechend im Umgang mit den unter Druck stehenden und Druck erzeugenden Adoptwerbern schwer tun.

das ist bei einem ehrenamtlich tätigen Verein in Ordnung, aber bei einem Verein, bei dem ich doch beträchtliche Summen für Dossierbetreuung zahle ist es nicht in Ordnung, dass ich bloß deswegen nicht mit der Betreuerin in Streit gerate, weil ich selber ganz gut mit Menschen umgehen kann - sie hingegen nicht.

ein weiterer und auch schon mein letzter Kritikpunkt betrifft auch die Projekte von familyforyou - diese scheinen mir zumindest was Äthiopien betrifft auch nicht durchdacht zu sein. -das Patenschaftsprojekt ist ein Projekt, wo man ein bestimmtes Patenkind zugeteilt bekommt - sinnvoller sind aber Patenschaftsprojekte, wo das Geld in einen Topf kommt und dann je nach Bedürftigkeit in einer Gruppe von Teilnehmern verteilt wird. So können die Ressourcen besser genutzt werden.

Auch, dass das Waisenhaus, das von family finanziert wird, nur für Buben ist, finde ich absolut nicht gut in einem Land, wo zwischen 70 un 75% der

weiblichen Bevölkerung Analphabetinnen sind. Hier meinte family immer, es hätten die äthiopischen Behörden ohne ihr Wissen die Buben reingesetzt. mag ja sein, aber warum war denn niemand vom Verein längerfristig vor Ort und hat die Bedingungen dort ordentlich mit den äthiopischen Behörden verhandelt? waren das doch schnelle Alibi-Projekte, damit man adoptieren darf oder ist man da wirklich mit Herz bei der Sache gewesen?

Versteh mich nicht falsch - ich finde es gut, dass es family gegeben hat, weil viele Kinder, die sonst weniger Chancen hätten nach Ö kommen konnten, aber ich bin nicht bereit ihnen deswegen alles zu verzeihen.

Ich denke es wird ihnen auch nur von den Behörden soviel verziehen, weil sie einerseits gute Selbstdarsteller sind, auch gute Kontakt haben, aber auch und vor allem deshalb, weil es viele Kinderwunschertern gibt, die auch in Zukunft Vereine brauchen werden.

Ich würde mir aber wünschen dass es neue Vereine gibt, die viel innere gute qualitative Substanz haben.

Das Agieren nach der gescheiterten Adoption von family gegenüber dem Adoptionsland Äthiopien finde ich aber nach wie vor indiskutabel und letzklassig.

Liebe Grüße

(10)(2e)

Geachte (10)(2e)

Zoals u weet heeft de minister voor Rechtsbescherming een commissie ingesteld die onderzoek doet naar de rol en betrokkenheid van de Nederlandse overheid bij mogelijke misstanden die in het verleden bij interlandelijke adopties hebben plaatsgevonden. De commissie wordt geleid door de heer mr. T.H.J. (Tjibbe) Joustra en bestaat verder uit mevrouw prof. dr. B.A. (Beatrice) de Graaf en de heer mr. G.J.H. (Bert-Jan) Houtzagers.

In dit kader van het onderzoek zou ik graag op korte termijn met u een afspraak maken voor een kennismaking en oriënterend gesprek. Dat kan op een locatie waar uw voorkeur naar uitgaat. Het gesprek zal ongeveer anderhalf uur duren. Namens de commissie zal ook (10)(2e) (projectleider) aanwezig zijn.

Graag hoor ik van u. Als u het handiger vindt telefonisch een afspraak te maken kan dat ook. In dat geval verzoek ik u een telefoonnummer door te geven waarop u bereikbaar bent, met eventueel de tijden die u het beste schikken.

Met vriendelijke groet.

Onderwerp: Suicide of (10)(2e)

Dear Minister,
Dear Mr. Joustra,

it is with a heavy heart that i have to inform you, that (10)(2e) succeeded this year with her suicide. This is the girl i mentioned in below email who had attempted suicide twice in 2019.

She was desperately searching for her mother.
We definitely could have solved her search case already in 2015 / 2016 .

However DNA India ((10)(2e)) then board of UAI , had advised her to do it herself.
He knew very well that it's mission impossible and that we can do it.
It was a bad advice.

I also found out that she was once client of (10)(2e) , who does Trauma Therapy, systemic family therapy under the guise of coaching.

Also 2 dutch south korean adoptees committed suicide.

I request you to start an investigation into the root causes of the suicides and how they can be prevented in the future.

Kindly reply this time to my email. My previous emails were not replied too.

over the holidays a Wereldkinderen adoptee from India has twice attempted suicide.

This is likely partially the result of the fact that Bal Anand/ World Children Welfare Trust , fools around adoptees regarding searches.

I remind you of the fact that Wereldkinderen knows since 2008 how badly Bal Anand ; (10)(2e) and the agencies organised in the Federation of agencies in Maharashtra treat adoptees.

I request the Minister to ask all documentation from Wereldkinderen regarding the cooperation ACT had regarding Roots in the period 2008 - end 2009.

It has all been documented.

Further i'd like to point out that aiding and abetting suicide is a crime in India.
One of our search cases is being stalled and frustrated by (10)(2e) since 2,5 years.

We notified World Children Welfare Trust about the suicide attempt and if anything happens to the adoptee we legally represent we will press criminal charges against your Indian partner.

The delay in providing proper assistance to adoptees has claimed too many lives already.

It is 100 percent the fault of the Ministry of justice and Wereldkinderen that Wereldkinderen does have incomplete files.

No original Birth Certificates.

No relinquishment document.

Not even the full copy of the guardianship application with annexes filed by the Wereldkinderen a representative in the name of the adoptive parents in India.

Every adoptee deserves a complete file, which Wereldkinderen doesn't have.

As part of it the OM can request via letter rogatory assistance from the Indian criminal investigation agency CBI.

The adoptive families, the adopted now adult children, can request their cases to be investigated by the OM. The Indian criminal investigation agency CBI can then verify the documents and look into each case.

Additionally the Ministry can fund ACT / ARC and we can equally assist the families and adoptees with their searches and hopefully the reunions.

We are also in a position, to push the Indian government to set up a local DNA Database, so that even cases where the paperwork was totally concocted can be solved.

It's all not rocket science.

It's just obvious that since now almost 14 years the ministry of justice has no interest in the fact that any truth comes out.

Just a total cover up.

For the rest of India, answers on whether the adoptions were conducted in line with the existing legal framework can only be found, if one is able to trace back the Indian families.

You cannot even do it from the desk in the Netherlands.

The Wereldkinderen Partners are uncooperative. That is a big fight we fight since many years.

Though we solved some Dutch cases, and can provide you detailed case studies on request.

First and foremost ACT needs funding to be able to fight it through in India and assist the adoptees.

In general you could investigate for India from the Desk in NL, whether Wereldkinderen has complete files.

You will find out, Wereldkinderen hasn't.

Wereldkinderen doesn't have:

Birthcertificate

Petition filed in the Bombay High Court,

Annexures to the petition such as:

Relinquishment paper

Or abandonment declaration of Juvenile Welfare Board.

Here definitely the ministry of justice as well as the foreign affairs ministry which issued the visa's, have done very wrong.

This failure effectively erased the identity of most Indian adult adoptees and makes searches so very difficult.

The Dutch state violated the rights of the children and their right to know their origins, systematically.

To verify my claim is very easy. Just check randomly 100 files of Wereldkinderen. – which likely they will not provide and cite privacy reasons.

The adoptees ought to be compensated financially for this. A significant lump sum.

Dear (10)(2e) (10)(2e) (10)(2e)

after some deliberations, I for now don't even want the report on file.

The meeting was intended to find a way of cooperation with the commission.

However as it stands today, none of the serious issues raises by ACT in the last 2 decades is being looked into.

Not India, not Ethiopia, not China, not Romania or how the dutch authorities could involve themselves in creating a convention which conflicts with the Hague Adoption Convention.

Further, the involvement of the FIOM / International Social Service isn't looked into either and we are now faced, with the ministry appointing them as the expertise , knowledge center and coordinator on searches.

To be frank, this is all a scandal!

Unless the Commission changes the approach taken, i don't see any reason why the meeting report or any information provided by me should be on file.

I explicitly withdraw my consent for this.

In case the commission, changes it s mind and broadens the investigation, certainly I will change that then too and be available to provide further in depths information as well as finalising this report.

Dear (10)(2e)

Thanks for the information and the pictures. It is very very sad, I want to travel to India and make up m mind after the trip. In the meantime we will not inform (10)(2e) about our concerns, because I want to confront her with this when I'm in India. We will put India "on hold" in the meantime.

Dear (10)(2e)

(10)(2e) the mother of (10)(2e) is so delighted because i show her the Photo of (10)(2e)

(10)(2e) mother is the one on the other picture.

The other mother, is also one women who stays at the beggar home. Her child was also given to one orphanage by the CWC.

She wants to meet her child. The superintendent has written a letter to the CWC, but the CWC doesn't reply. They are of the opinion, mother and child shouldn't get to attached.

Pretty sad ...isn't it?

Two things which I didn't tell you yet. When the Superintendent was on leave, Bal Anand people took both mother for an IQ test. We only explained to the Superintendent why Bal anand did this....

It's because " mental retardation" doesn't come under the mental health act.

The other thing is, that we actually asked back in 2006 in our preet mandir petition, for an investigation into ALL Maharashtra agencies. Bal Anand, was so scared about this, that they hired a lawyer, roped in the other agencies and wanted actually to oppose that. It didn't happen....I guess their lawyer advised them not to do anything unless the court would order something in our total favour. (investigation not only into preet mandir, but the other agencies too)

Last night first (10)(2e) had a terrible nightmare about the mothers. There was also another mother with a newborn. The superintendent told us, that she would not even give the child out of her hands....

(10)(2e) dreamed how the beggar home staff at a later stage took away the baby...

Few hours later I also had nightmares about (10)(2e) and the other mother.

It's all a really sad situation.

Warm regards

(10)(2e)

P.S.

I took the attached pictures secretly with my cellphone. I don't mind if you show them the (10)(2e) maybe then they understand, that this is not just a procedural error but that "their" child has a mother. But please don't give it out of your hands.

To: <[redacted] (10)(2e) @minvenj.nl>

Dear Minister Sander Dekker,

In 2007 Netwerk TV exposed the „[redacted] (10)(2e)“ scandal.

Minister Hirsch Balling ordered an investigation. However the agency Meiling was cleared, the ombudsman couldn't find any fault with the administration.

Secretary of State Mr. Teeven, also informed the parliament only rudimentary about the fact that the child was indeed kidnapped.

Now after 12 years it is no longer deniable.

<http://www.againstchildtrafficking.org/2019/06/kidnapping-for-adoption-proven-guilty-as-charged/>

We request you to take the appropriate actions and initiate a broader investigation into the adoptions from India. How many of the other 50 children from Malaysian Social Service may have been kidnapped ?

In particular your ministry should assist the indian family to at least meet their now adult son once.

Likewise your ministry should request the OM to initiate a criminal investigation into the functioning of Meiling and especially of (10)(2e)

We have documents, which clearly prove, that the adoptive parents paid twice the adoption fee. That with knowledge of Meiling. (can be made available on request)

The full file can be accessed here:

(10)(2e)

Further in 2007 we provided dutch authorities with extensive evidence of gross malpractices if not outright criminal activity regarding adoptions from India.

Your ministry has so far ignored this completely.

I already informed your ministry on 6th June, but it seems to be ignored. They don't even ask for the full information.

The email communication is attached below.

Kindly confirm receipt of this email and the file and inform us about the actions taken.

Sincerely

Dear [redacted] (10)(2e)

The Inspectorate for Youth Care has completed the investigation regarding the adoptions from India by means of MSS during the period

1995-2002 by Stichting Meiling. The report will be published on our website, www.inspectiejeugdzorg.nl, in november, I expect.

We have used the information you supplied in so far the contents of the files and CD's you had selected and of your mails were relevant to our investigation. As you know, we investigated, as requested by the Ministry of Justice, how Stichting Meiling has checked her contact MSS in the above mentioned years and how Stichting Meiling reacted when news of alleged illegal acting by MSS spread. The inspectorate has not investigated any individual case.

On behalf of (10)(2e), the project manager of the investigation of the Inspectorate for Youth Care into the activities of Stichting Meiling, I thank you again for coming to our office, for handing over the two folders and CD's and for clarifying the contents.

We would like to inform you that we have handed over the information you gave us to the Ministry of Justice (b)(7)(D); (10)(2e) as we think it might be relevant for other investigations the ministry has commissioned or will be commissioning in the future.

(10)(2e) was seconded by the dutch to the EU and worked on the EU Anti-Trafficking directive.

There are reasons to believe that the dutch ministry of justice thus prevented that there is a proper definition of when adoption is child trafficking.

And again, this makes the dutch authorities complicit in the destruction of the professional life of (10)(2e)

I m afraid this is the real reason behind the fact that the Committee wouldn't meet with us.

Well, we are now 7,5 years further.

Adoptionscentrum now finally stopped their Ethiopia program

Wereldkinderen - also just recently stopped.

DIA (new agency created due to merger of AC and Danadopt) is still

continuing.

ACT still deals with the case of (10)(2e) and (10)(2e)...

(10)(2e),

your list is excellent. However, I would suggest, that before one goes into a discussion, that actually one tries to open up the agencies.

So I would not suggest that you go there.

I would give the meeting the Title: what goes wrong? What are grey areas?

Etc...

I mean, that really the agency representatives, should open their mouth and share the difficulties and risks and worries.

Before any serious discussion.

As you said, things have to come on the table. I assume it's not easy, even between agencies to openly talk about issues.

In the second part, after the facts and information has been exchanged and

collected- then maybe one could start to go into a discussion.

We should indeed prepare a hyper strong document about FFY- and what went wrong- and that this could EASILY happen to each and every other accredited agency.

If there are problem in Ethiopia for WK- WK could also openly put things on the table. Someone has to make a start with opening up...

Just my thoughts..

You all know that I am rather sceptical about the possibilities to change the system for the better. And I know all too well that people simply do not want to hear the thruth of the matter.

However, I think [redacted] has created here a golden window of oppertunity.

I would suggest we jointly prepare a hyper strong document, as [redacted] asks for a broader discussion on Ethiopia.

Some first ideas on what the document could include:

- * The US Embassy's warning about contact with bio families
- * Should adoptions from intact families be allowed

- * should adoptions for reason of poverty be allowed
- * the fact that there are more and more children homes run by adoption agencies
- * competition, projects in return for children (article AFA of 2007 about competition)
- * the adoption market is moving to Afrika ((10)(2e) (10)(2e))
- * Italy, Spain, France allow contact with children before adoption is agreed (report TdH - adoption at what cost, 2008)
- * is it ethical to have children's homes and unwed motherhomes financed by adoption money
- * full adoption is not known in Africa
- * Togo, Zambia, Congo have stopped adoptions
- * Zambia - judges declared children abandoned without any social investigation
- * Looking into older adoptions, often paperwork seems not to have been correct/complete. Can this be prevented?
- * Example of India (Dutch and Danish cases - also Euradopt members involved)

We could make a paper of a few pages and add all the annexes/proof.

(10)(2e) could then propose to have a follow up meeting in The Hague - in a few months - to discuss this further. And to ask all other Euradopt members to provide any info on adoptions that have caused problems, were doubtful.

And to provide openness in their adoption cost and the adoption partners in

third countries.

Another issue: how can it be that when a Euradopt member's CAs decides a country does not hold sufficient securities to do adoptions (Cambodia, Vietnam), that other countries just continue. Should Euradopt not play a role in that discussion.

When all this gets on the table, then it will be difficult to deny the problems and some discussion will need to take place.

I think it is too early for me to step in now. They first need something to wake them up (brutally).

Looking forwards to your ideas/suggestions about this.

Best,

Dear [redacted] (10)(2e)

We are in the Ex Board very grateful that you in Wk have taken upon yourself to collect information about Ethiopia for the GM. Will it be possible for you to prepare a document for the discussion? We are thinking not only of a summary of the answers to the concrete questions, but also of some basis for a discussion about our adoption practice. Thoughts and/or questions. This is the best way to discuss our principles, both the Ethical Rules and Financial

Factors Guidelines document.

The discussion also needs to include how we can keep up our standards when the reality in Ethiopia becomes more difficult, and the pressure from too many applicants increases.

As we are thinking about it right now, we plan for (10)(2e) to chair the session, so that you from Wk are free to discuss. And we would like the person or persons who speak for Wk to sit in front with him and be leading the discussion with him. It is of course up to you if it is (10)(2e) or yourself, or both, that take care of the Ethiopia discussion for Wk.

I am looking forward to hearing from you about this!

Best regards,

Instead of starting a wider investigation into it, they covered it up together.

Dear (10)(2e) (10)(2e)

<http://www.againstchildtrafficking.org/wp-content/uploads/Second-Interim-Report-FINAL-redacted-for-distribution+annexures.pdf>

This is the research and report regarding Ethiopia.
Of course we have more, including the evidence that the representative of Wereldkinderen flat out lied knowingly to the court.

This scandal was covered up by the Ministry of justice in connivance with Wereldkinderen.

Isn't it strange that Ethiopia is excluded?

Dear (10)(2e) (10)(2e)

kindly confirm also receipt of this blog post.

We made it for you and i m sure it's easy for you to find out how much money the dutch authorities spend on International Social Service. If not, just let me know and we can give you some documents.

We also still have lots of more documents and information which i think you should look into.

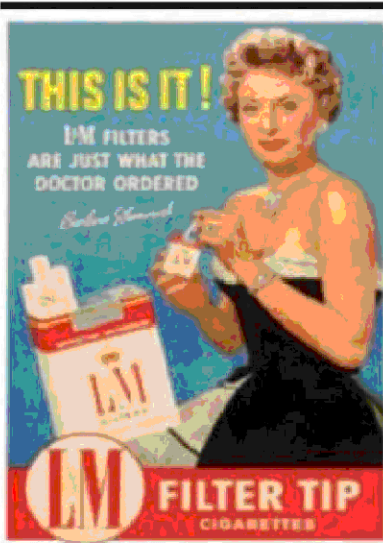

Frankly i m a bit surprised that first the Committee said they will not look into anything beyond the original mandate, now it is changed. But i cannot submit anything?

Also given that the Wobs we made and asked others to make, lead to the establishment of this Committee, but then (10)(2e) isn't willing to even have a meeting with us, is pretty bizarre to say it gently.

International Social Service and the Hague Permanent Buro (Part 4)

Posted September 8, 2020

Corruption has many shapes and the higher one gets, the more blatant and at the same time subtle it becomes.

No one would really accept if tobacco companies make public health policies. In the area of child adoption, however, society accepts this.

Let's have a closer look.

Players:

Organisations:

- 1) International Social Service (ISS) = an adoption agency network.
- 2) Hague Conference on Private International law.

Person:

(10)(2e) Secretary General of the Permanent Bureau of the Hague Conference on Private International Law.

During the time of the drafting of United Nations Convention on the Rights of the Child, it became clear that intercountry adoptions would be over. So the adoption mob found a willing collaborator in the Netherlands.

The "Hague Conference on private international law". There is more to this process, but that is for another blog.

First we have a look at the CV of (10)(2e)

(10)(2e)

During the same time (10)(2e) was:

(10)(2e)

We can conclude that here is ISS and the Hague Conference on private international law are linked.

An adoption agency network and a body who makes laws.

Let's translate it into tobacco.

Imagine a tobacco company and the World Health Organisation being connected through one of the WHO's top level managers... and then the tobacco company to develop a WHO campaign "healthy and ethical smoking". I think many would consider that as problematic.

But the plot even thickens more.

Here [LINK](#) is a letter of the begging the Central Adoption Authorities of the so-called receiving countries for money for International Social Service.

So, the top official of the Hague Permanent Bureau requests direct state support for the International Social Service, of which he is a Council member.

Is that abuse of position?

Guess what? Until date many Central Authorities pay ISS in return for the ISS newsletter and access to the ISS database. In 2017, some 375 thousand Swiss Francs (approx. 350.000 euro).

in his dual position has provided the seeds for the pro-adoption biased Hague position on the subsidiarity principle that gets internationally promoted by ISS.

Surprised that the industry sees adoption and 'permanency' as "best interest" of children?

The Hague Adoption Convention, just what the experts order 😊

Despite our 2 years rather good cooperation, (10)(2e) closed the roots project. He flew to India and then partially repaired the relationship with their partners. He also backed them up and as a result of it, the agencies brought the "third party" clause into the CARA Guidelines. Essentially trying to block us from searching. It made the live of adoptees hell till date. Even though we won now this court case here which clarifies that we are NOT a third party the Wereldkinderen partners resist with tooth and nails.

Dear [redacted] (10)(2e)

First of all I have to say that I respect you very much and know that you are doing integer and good work. But for me it's a bridge too far to say that I have blocked field research and put you out of the office.

We have withdraw the proposals of (10)(2e) and

(10)(2e) before you, (10)(2e) travelled to India. We have facilitated you to do reseach in India and you traveled with (10)(2e) to India to do the research. Wereldkinderen did not block fieldresearch, we had another opinion about whether and how to involve (10)(2e) But furthermore you were facilitated by us as far as possible.

And concerning the research in Ethiopia:

we did not put you out of the office. In contrary, we asked you to stay closely involved, but in another role, more on the background, because the diep field research in Ethiopia has to be done by an Ethiopian person. We believe that in this way we have more chance to get things "above the table".

My intention is also still that we bring things we started together to logistical conclusions.

Therefore, I like to invite you to have a meeting with me and the chairman of the Supervisory Board. I also want (10)(2e) (10)(2e) to be involved. What is an convenient day for you?

I hope we can sit around the table at a short term.

Dear (10)(2e)

this is a personal email to you.- just to you.

I did held you very high. It has been my understanding that you really take

issues seriously and have the interest of the children first and also think about mothers.

So far I have understood, your motivation for your work was to do something "good". Not at last driven by your own life experience.

Frankly spoken I m now literally speechless and shocked by the way you put me out of your Office and out of the research. You know since early 2008- that my goal was to do field research along with you (personally).

You basically blocked that for India. The additional field research we talked about before we went to India for (10)(2e) (10)(2e) didn't materialise

till today.

We have to bring things which we have started TOGETHER to an end and to its logical conclusions.

You have to understand, that of course I do my " Homework". And did my

Homework. Please understand, that during the last 18 month of our cooperation I exercised great patience, because I understand you are steering a "large ship".

I m sorry to say so- but there are criminals working in your organisation who have no respect whatsoever for children and their mothers. Although it may appear prima facie different.

Meanwhile I have gathered further evidence about this.

Ultimately you are responsible for this as the Director, morally and legally.

All this happened during your time.

From the inside of my heart, my deepest wish is, that
you and me travel to

Ethiopia

and meet some of the mothers.

I think only if you have seen their faces

and seen them crying about the loss of their children, you may understand

what I m talking about. Something inside me still believes you have the

heart at the right place.

The issues nor myself won't disappear. Let me kindly and still in friendship

advise you to take the issues totally in your own hands- so long as you

still can.

As for Indian Roots:

I hold you in very high respect for what you have been doing in respect of

Indian Roots. But I would also like to mention, that our (10)(2e) / WK)

cooperation was largely due to the fact, that (10)(2e) invested lot's of her

personal free time into that Project.

She did a really good Job and is Wereldkinderen's best "Asset".

(10)(2e) is

a person with a vision having the heart at the right place.

Knowing now what I learned about Ethiopia during my heavily restricted and obstructed research on WK Ethiopia files, plus my own new recent research, I will have to distance myself totally from Wereldkinderen under the current circumstances.

I cannot work with an organisation where workers deal so disrespectfully and heartlessly cruel with mothers and their children. Were workers in fact are practising adoption practises which are nothing short than child trafficking and practises similar to slavery.

The director of this organisation allows this to happen and allows this workers to obstruct serious research.

I hope you remember that I do my homework- and if I say something so harsh-

I can proof it and that I take my work serious and take things to it's

logical conclusions.

Kind regards

Dear (10)(2e),

We discussed this matter in the meeting of the managementteam yesterday. And

we decided as follows:

- (10)(2e) will contact you about our ideas of a field reasearch in Ethiopia and your possible role at the background (why a role at the background? Because we think an Ethiopian woman can speak more openly with another Ethiopian woman and can get the real motivation / the real story from her to give up (or not) the child;

- (10)(2e) will make - together with (10)(2e) a plan for a deep field research of our dossiers from Ethiopia. As I told you before we will start with research of the dossiers of (10)(2e) and (10)(2e)

(10)(2e) feel free to do your own investigation if we don't come to an agreement. Maybe it will give even a more objective result to do research in Ethiopia independently of eachother - as we discussed before. Both parties will have more space and we can strenghten each other in the meanwhile. But I really would regret if this means our cooperation will come to a end, we can earn a lot from each other: we can learn a lot from you and you can use us to throw a stone from inside in the lake and get inside information as well. Finally we have the same goal: to have all the information on the table and come towards transparant procedures and openness for all parties

involved.

Dear (10)(2e)

Yesterday was a very bad day for children's rights. I watched the whole Dutch debate online and I m shocked. I heard you saying in Netwerk something like- that you are really upset that here rights of prospective adoptive parents prevailed over children's rights". >From my side I couldn't agree more with you on that.

I agree with you that children's rights should come first. That was the common ground for the cooperation we had for the last 17 Months: to see if children's rights were fully respected in WK's adoptions, as at the time some gross irregularities (to say the least) made headlines in relation to adoptions from India. However, during both the Indian and Ethiopian Research

I felt a huge resistance.

What really needed to be done was to go into the field, find the parents and

to see why and how the children became adoptable. Were all steps done

correctly. The underlying question then would be of course: was the adoption necessary or were other local options available?

You now propose to replace me by another person, with less experience and part of your organisation. And you ask if I could then be involved from a distance.

My reply must be a clear no. Either I am free in checking the information on the ground (accompanied by WK staff/Ethiopian resource person - but not by

(10)(2e)) or I renounce responsibility.

In that case my interim report will be the final report and should be presented to WK's board.

I will then do further research in Ethiopia independently from WK.

(10)(2e) I hope we can come to an agreement on an issue as important as this.

Dear (10)(2e)

We had our discussion on Monday and Tuesday. You know we were aware already

of the risks in Ethiopia and we acted very reluctant for that reason. Your

report clearly shows that Wereldkinderen - although we did the best we could

- has to do more research to existing, pending and new files. Your

report gives us definitely reason to do more investigation on a short

term.

First, to start with, we want to do more investigation in Ethiopia to some

of the files you have seen, all the (10)(2e) files and the (10)(2e)

(10)(2e) But

also all the other files we want to investigate more. For that we will make

up a longer term planning.

How to fulfil this is not clear yet. We wondered what the best way is

to get

all the necessary information in Ethiopia on the table and if is

tactical that f.e. you do this research in Ethiopia. But we

have doubts if

that is the best way. The reseach in Ethiopia needs to be done by an

Ethiopian person, a person who is trustable and objective. We would like you

to be very close involved, So you will have an important role, but more

at

the background.

(10)(2e)

have met a person who probably will do the roots searches

in Ethiopia for Wereldkinderen. She will be at the office at Thursday. She

comes from Ethiopia, has lived and studied in the Netherlands for many years

and has a good understanding of both cultures and habits. She speaks both

languages fluently. We have not made up our mind about the question who

en

how to do the research. Maybe she can do this research for us in close

cooperation with you. But on the other hand, if she is at the payroll of

Wereldkinderen, can she still be seen as objective, don't she has the

appearances against her? At the other hand, she has the same mission as

Wereldkinderen: to get the right information about the background of the

children. How do you feel about this. We would like to ask you to come

with advice too.

In the meantime we want - from now on - that a person who is objective and

trustable (maybe the same as the woman I mentioned above), speaks to the

biological mother when she appears at the Court. To make sure that she

really wants that her child goes for adoption. And if there's no biological mother or father, she has to go back to the source to verify the information about the child. Check and dubblecheck.

We realize that the situation in Ethiopia is very difficult and risky, and we want to be very carefull. We try to minimize the risks, but we also know that we don't get a 100% guarantee. But we do our best to come as close as possible to the 100%.

Maybe it's a good idea to see each other on a short term at the office to make up our minds?

Bijlagen: Bericht- von (10)(2e) doc

Dear Madam/ Sir,

in 2005, Terre des Hommes Germany financially supported with 500 EUR my travel to India. The rest of the cost I had to bear myself.

On request I can make the attachments available too.

This relates also to Terre des Hommes Netherlands, as they are found together in the Terre des Hommes international Federation. They also lobby and advocate on EU level and were involved in the development of the Hague Adoption Convention.

It directly also relates to Wereldkinderen and the Dutch Ministry of Justice.

Wereldkinderen mediated several children from the mentioned Tender Loving Care Home and in general from India.

I / we did, what the commission cannot do. Research in depths in the field. This was kind of the start.

Terre des Hommes which is funded largely also by government grants and had received massive funding from the EU to counter Child Trafficking, until date denies their own involvement in child trafficking for adoption and never took the issue seriously up.

Kindly confirm receipt of this email and the attached report.

Watch out for my P.S.

(10)(2e)

I have to say I m just shocked deeply.

- a) didn't you tell me that you only mediate special needs children?
- b) Why are those children sent abroad? Can they not at all be placed in India?
- c) You say once court and at the same time child welfare committee...so I m getting a bit confused.
- d) What is the status? Do I understand it right that the children were referred by Bal Anand to a dutch couple- they accepted- the guardianship petition was then filed in Mumbai High Court and now the High Court requires additional investigation into the mental health of the mothers?

e) Do you realise, that it is ethically and legally very very difficult to free the children for adoption without the mothers being able to consent properly to the whole thing?

I m really shocked and have a terrible headache about this.

What do you expect me now to do with this information?

Warm regards

(10)(2e)

P.S.

21:45 hours

(10)(2e)

After a few hours of digging, we found out the details:

Adoptive Parents:

a)

b)

(10)(2e)

I have read the reported JUDGEMENT in this case. YOU ARE WRITING " CASE LAW!"- in that sense you are right- it's not about "circumventing" rules, but rather making the rules.

You say:

"the Court requires more investigation on the mental health of the mothers. This procedure is now pending"

Ina this is pretty MUCH DISTORTED! As a matter of fact this adoption petitions have been DISMISSED!!!! By the court!- you have a PROBLEM NOW!

The court requires that the mothers should be DECLARED mentally sick by the competent authority under the Mental Health ACT.

DO YOU REALLY WANT TO DO THIS?

This has NOT only a huge impact on the lives of the children but also on the mothers!-

Are this kind of children- the few children which WERELDKINDEREN wants to save?????

I m utterly shocked and I don't know and understand at all why you informed me about this case. Usually I would immediately inform the Indian activists and press about it- but certainly give you the opportunity to explain all this to us.

I just can't believe that you are really aware of the facts in this case. Did you read the judgement yourself?

Betreff: RE: BAL ANAND WK - Partner.... Their mentally-challenged moms can't give go-ahead for adoption

Dear (10)(2e)

We have checked what the real situation is, there are always two sides of a story. Is it correct that this was in 2004 or 2005 in the newspapers? The children who are mentioned are older now. According to our information: It concerns two children, both born in (10)(2e). They are proposed to Dutch couples in (10)(2e) at the age of (10)(2e). Before they were placed in BalAnand they lived in a state home for mentally handicapped women. The Court ordered that these children had to leave there, because they did not get the care a young child need. The mothers were not able to take care of the children. In 2006 the children were placed in BalAnand, by the Child Welfare Committee, via the Court. This was without any pressure of BalAnand of Wereldkinderen. Now the Court requires more investigation on the mental health of the mothers. This procedure is now pending. I'm sure that BalAnand does the best they can to find the relatives of these children. If you see what BalAnand does to stimulate domestic adoptions, there is no doubt about the intentions of BalAnand and they don't circumvent the rules.

I forgot about this article, but just found it back in my archives.

This is RIDICULLOUS!....and it clearly shows how agencies circumvent rules.

After publishing the photograph- the CWC, will have declared the child abandoned and free for adoption.

I know a few similar and outrageous cases like this. In some cases we have even documents were it is stated, that the mother's condition has improved and she is able to take care of the child.

But the child is already abroad.

I think at this time [redacted] (10)(2e) was on the CWC.

Their mentally-challenged moms can't give go-ahead for adoption

Agency on the lookout for relatives so these two infants can find
new homes

(10)(2e)

Adoption agency Bal Anand, (10)(2e) is unable to put (10)(2e)

(10)(2e) and (10)(2e) up for adoption because the mothers of

both are mentally challenged and no one knows who their fathers are.

Without consent from relatives, these children cannot find new
families.

Officials at the agency where the two kids are lodged say that the
search for relatives who can give the all important go-ahead has so
far proved futile.

The two infants were born at the Beggar Home at Mankhurd. They were
then handed over to the Child Welfare Committee, the apex body. The
committee, in turn, handed them over to Bal Anand.

"It has been three months since the kids came here but we have been
unable to find any of their relatives. The Juvenile Act prohibits
mentally-challenged people from giving their consent for adoption,"
says an official at Bal Anand.

"We will be publishing the photographs of the two kids in newspapers as per law. This will also help us find out who is in a legal position to give the consent for their adoption. Even though we'd love them to be around, this cannot be a permanent home for them, after all. (10)(2e) deserve good homes," said (10)(2e) (10)(2e), a social worker at Bal Anand.

(10)(2e)

Wij moeten (10)(2e) uit ons hoofd gaan zetten

De kogel is door de kerk.

Wij hebben afgelopen donderdag dan écht afscheid moeten nemen van (10)(2e)

Donderdag zijn wij 2 uur in gesprek geweest met (10)(2e) van Wereld Kinderen) en (10)(2e) hoofd Azië).

Wij hebben gepraat als brugman en dachten de touwtjes nog in handen te hebben.

Wij zijn écht het gesprek in gegaan met een houding van poot stijf houden en knokken voor onze kleine meid.

Maar helaas !!!

Er viel geen keuze te maken (10)(2e) had nooit voor adoptie voorgesteld mogen worden omdat er volledig voorbij is gegaan aan een Mental Health Act en de rechter bij de District-Court.

Volgens WK had de rechter bij de High-Court de volledige zaak al verworpen en zijn wij daar al los gekoppeld van

(10)(2e)

Wij hebben nog getracht WK er van te overtuigen een extra advocaat (10)(2e) te laten bemiddelen of een afvaardiging van WK naar India te sturen. Al onze ideeën werden teniet gedaan er was geen mouw meer aan te passen.

Wij zagen nog wel mogelijkheden. Wachten op de District-Court die had dan eerst een onderzoek naar de moeder moeten instellen. Vervolgens zouden de stukken dan weer naar the Child Welfare Committee gaan en daarna naar de High-Court. Ook al hadden wij nog maanden moeten wachten dat hadden wij zeker voor (10)(2e) over gehad. Maar wij stonden écht met de rug tegen de muur.

Ik heb ze er zelfs mee geconfronteerd of negatieve publiciteit ze weerhield van het ondernemen van actie. Al was ik op mijn handen gaan lopen ik kon er helemaal niets mee.

De enige schrale troost die wij gaan krijgen zijn bewijsstukken waaruit wij zouden kunnen concluderen dat wij geen schijn van kans hadden. (10)(2e) vond dat ze ons dat moreel verplicht was.

Zij kon zich vinden in mijn verhaal dat wij het anders nooit een plekje zouden kunnen geven en deze ellende altijd als een donkere wolk over een volgende procedure heen zou hangen.

Uiteindelijk gaf (10)(2e) ook aan toch nog een reis naar India te willen gaan maken.

Voor ons het mosterd na de maaltijd gevoel. Ze vond dat zij toch maar eens face to face met alle betrokken partijen moest gaan praten.

Volgens WK schijnt er een hele kleine kans te zijn dat (10)(2e) ooit nog eens als voorstel voorbij zou kunnen komen.

Maar die hoop probeer ik maar te laten varen om mijzelf niet gek te maken.

Niet alleen in India zijn grove fouten gemaakt maar ook bij WK. Alle details zal ik jullie maar besparen om te voorkomen dat jullie er onpasselijk van worden. Eén ding weet ik wel dat bij een eventuele volgende procedure ik gewapend met een memorecorder een gesprek in ga.

Door alle tegenstrijdigheden is WK bij ons in een ander daglicht komen te staan.

Hadden wij bij onze vorige procedure (die ook fout is gelopen) voor een kindje vanuit China te maken met de meest beroerde vergunninghouder van Nederland namelijk Meiling.

Weet ik nu ook niet meer hoe ik tegen de " professionaliteit " van Wereld Kinderen aan moet kijken.

Het liefst zou ik willen dat de minister van Justitie de heer Hirsch Ballin al die vergunninghouders onder extreem zware controles gaat plaatsen.

Ook al heb ik nog zoveel wilde plannen, uitvoeren kan ik ze niet.

Als (10)(2e) en ik ooit (na 10 jaar) een gezinnetje willen gaan vormen zijn wij voor een volgende procedure weer afhankelijk van WK en weten jullie hoe dat voelt.

Zwaar k.. !!!

Wat zou ik graag de media op willen zoeken of het ministerie van Justitie aan willen schrijven. Er zitten voor mij toch nog enorme vage stukken aan dit verhaal en ik kan er niets maar dan ook niets aan doen.

Het enige wat ik kan doen is afwachten wat ik toegestuurd ga krijgen.

Maar dat er bewijsstukken gaan komen dat is een ding dat zeker is.

Alleen (10)(2e) krijgen wij er nooit maar dan ook nooit meer mee terug.

Wat een vreselijk hard gelach is dit.

Nu wacht ons de zware taak ons letterlijk los te moeten gaan maken van onze mooie kleine meid. Het is zo wrang dat zij nu achterblijft zonder de medische zorg die zij nu zo bikkelhard nodig heeft en dat er een mooie toekomst aan haar voorbij gaat.

Deze gedachten raken mij in mijn hart en in mijn ziel.

Wat is het leven soms bijzonder hard.

I am writing to you at the advice of (10)(2e) (10)(2e) (a Colombian) and I are dedicated to assist Colombian adoptees and their biological families to find each other. We have received a request from a Colombian biological mother who has been searching for her son for many years.

Below is the translated story of her letter to us:

Biological name of adoptee: (10)(2e) - unknown adopted name

QUOTE

There are several inconsistencies in the civil registry.

There is a notary authentication where I legalize the surrender of my baby, but I was underage and could not sign, they made me sign a document with the excuse that they had to perform a medical procedure but that did not happen, I was tricked.

Another inconsistency in the document is that the ID number appears another number that is not known whose it is and whoever wrote it was another person and not me because the handwriting and ID number do not correspond to my writing much less the signature and the seal of the notary .

Another inconsistency is that I never went to a Notary, my son was born on June 8 and the document was authenticated with a June 10 date, two days after giving birth, however, I was very delicate because I fell off a ladder and because of that, the baby was born premature and I was delicate, they took my baby when he was born.

Another inconsistency in the back of the adoption document is that at that time a typewriter was used and the margins are all aligned except for the fifth line where they write past the margin, which is not allowed to do in a legal document.

A nun came to see me at the hospital, said she had been sent by sra. (10)(2e) and she made me sign on a document marked with two X's and said that I had to sign in each X saying that it was for a procedure they would do to the baby. It can be seen that the handwriting of my signature is different from that the letter's handwriting where it continues to write the card number and from where. She told me to give the baby a name, and I named him (10)(2e) the reason being that he was so ill and delicate that may die and they needed a name to bury him.

Another inconsistency is that the document says that I was single, although I was married to my son's father, and that I gave the baby up for adoption which is not the case, I did not give my son to adoption.

I looked for my son for many years because who knew the truth was my sister who was in cahoots with the baby's father (he was 32 years old and I was 17) to give up the baby. For many years, I believed the baby had died, he had been born premature (7 months) and they told me his health was very delicate. Recently, my sister told me to go to FANA. I was never told what had happened to the baby. I had come from a small town and this is over forty years ago, where the customs and culture were very different from now.

FANA confirmed to me that the baby was alive and that he had been given for adoption to a family in Holland. That is all they could tell me.

We have touched many doors and we really know that many obscure things surrounded the adoption of my son. We have much faith and hope to find him and so that I can have peace in my heart, and have suffered very much for all the evil things they did to me.

Please help us

Adoptie India/Bal Anand	Sterkte	Zwak	Kansen	Bedreiging
<p>Transparantie in proces van afstand doen</p> <p>Transparency is only an illusion. Transparency is not achieved through Paperwork. People who I know who have done their practise in SOFOSH- the most ethical agency- tell very clearly that the mothers are counselled badly. But Sofosh if asked tell you how nicely they counsel the mothers. If you as a westerner is present during a counselling session, (10)(2e) will do it nicely and politically correct.</p> <p>Only if there is a trustworthy indian social worker, who is present as a spy, you will achieve transparency. Otherwise you will never know how it works. I think it took Pien more than one year in order to win the trust of the SW and really see how and what happens behind the curtains.</p> <p>On paperwork a lot can be written and it just creates a myth.</p>	<p>(10)(2e) geeft openheid van alle documenten over afstand en verlaten</p> <p>Ha ha ha...now there is little scope for total fraud anymore. So it's not such a big deal. But you can also not look behind the paperwork from the netherlands.</p> <p>AND!!! You don't get the addresses of first families/ mothers. You have NO WAY, of crosschecking the paperwork yourself.</p> <p>I recall that marjolin (wrongly spelled) told us very clearly on the Wednesday when we met with (10)(2e) that (10)(2e) gives now the names, but not the addresses. What will you do with just a name in a country of 1.2 billion???</p> <p>Apart from this, you should have had this info much earlier. According to me, it's a full scandal that WK doesn't even provide the parents with the petitions which were filed in court under their names.</p>	<p>Counselen moeders onduidelijk. Traditionele manier van denken Niet transparant hoe zij echt denkt. Moeders hebben geen advocaat die hun belangen behartigt. Counseling bestaat uit één gesprek.</p> <ul style="list-style-type: none"> - the case of the mentally ill mothers shows very clearly (10)(2e) attitude. Who helped the mothers? (10)(2e) Study was inspired by the fact that she worked at Bal Anand. I don't think that much has changed, or that (10)(2e) will ever change. - The mother will never have an independent advocate. This is legally not possible within the indian system. The new CARA Guidelines make it mandatory that mothers sign in front of CWC/ ICSW/ or DWCD. They should also counsel. BUT!?! This is nothing really new. Even now, relinquishment deeds need to be co- signed by the officials. None of them will properly counsel the mother. 	<p>(10)(2e) is overeengekomen dat zij aangeeft wat er gedaan wordt om kind bij moeder te houden.</p> <p>(10)(2e) is a senior social worker. Not a beginner. That should have been the case MUCH earlier. How will you control it now?</p> <p>That she will now write down what she did, to keep the child with the mother, will just create more paperwork. It's a matter of attitude- not paperwork. Counselling cannot be caught on paperwork. On paperwork a lot can be written.</p> <p>WK kan nu meedenken</p> <p>No you can't! (10)(2e) is counselling the mothers, or her social worker. You can maybe think- but counselling is a process and a matter of attitude.</p> <p>Informatic over counselen en judgement opsturen van ZA. Kijken of dit opgepakt wordt.</p> <p>Don't understand this.</p> <p>Met andere Euradopt organisaties die partners in</p>	<p>Heeft (10)(2e) deze manier van denken bij afstandsmoeders.</p> <p>Yes- (10)(2e) will not so easily change ever. If it is so difficult for Wereldkinderen to change, how difficult it is then for (10)(2e)?</p> <p>Apart from that, i m not much bothered about (10)(2e) when talking to WK. But rather bothered about WK. You are the leader. Not (10)(2e), or any other orphanage.</p> <p>Kindereen worden op deze manier 'afgepakt'</p> <p>Yes- we are investigating!...but what we find doesn't look nice. I mean with Bal Anand.</p> <p>(10)(2e) denkt dat kinderen beter af zijn in Ned.</p> <p>Yes- and most probably she maybe right. At least prim a facie.</p> <p>Federatie denkt hetzelfde en wil het bij het oude houden.</p> <p>Yes....</p> <p>The additional risks are:</p>

		<p>ICSW is the scrutiny agency, so here is a conflict of interest. CWC Member are often just people from the “society” and therefore reflect the societal stereotypical attitude.- stigma of unwed motherhood. In the DWCD are bureaucrats. I doubt that they do proper counselling.</p> <ul style="list-style-type: none"> - Theoretically the mother could try to get a lawyer under legal aid. But only theoretically...and if what would the lawyer do? Could he do? - Counselling needs to be done by a totally independent entity. Otherwise there remains a conflict of interest. The organisation who places the child, receives the Fee's CANNOT be allowed to do the counselling. - This is <u>not</u> personal about (10)(2e) but a rather serious mistake in the current system and in the newly proposed system as well. 	<p>Federatie hebben contact zoeken om onderwerp counselen moeders gedragen te krijgen door Federatie</p> <p>My goodness! Do you know who else is in the federation? Do you think that any of these orphanages, who are basically nothing else then adoption agencies, who live from Inter-country Adoption, are any better then (10)(2a) None of them is! They may be much worse!</p> <p>Bal Asha trust is really bad</p> <p>Bal Vikas- remember the report of the abuses</p> <p>Don't ask me about BSSK and Sofosh...*argh*</p> <p>Etc...</p> <ul style="list-style-type: none"> - the chance with the new guidelines is, that referrals will now pick up again and that more children will come into the adoption stream. Especially that now baby cradles are set up in every district all over India, could mean that India will be placing 5000 children and above for ICA per year 	<ul style="list-style-type: none"> - insufficient monitoring by the State government (remember the letter of (10)(2e) (10)(2e) which reflects very much the attitude of the maharshtran government and DWCD who is responsible for monitoring the adoption agencies - CARA is corrupt to the core - Rumours of corrupt Child Welfare Committee members - No authority crosschecks the authenticity of the paperwork. - Even the Scrutiny Agency ICSW is barred by law to do so - Etc...

			with five years. It's a huge potential and the minister envisions that.	
Zoeken naar biologische ouders	<p>Advertenties in krant en televisie worden gezet. Data zijn bekend.</p> <p>- did you ever see these advertisements? In one of the case we investigated, an educated anganwadi teacher (the local social worker) thought, that this advertisement was just to say that the kids are doing well and that someone should come and visit them.!!! She as an educated person didn't understand at all what it was about.</p>	<p>In hoeverre zoekt de politie goed naar ouders van verlaten kinderen? Het lijkt erop dat dit niet goed gebeurt. Wij krijgen de politierapporten niet in handen. (wel in te zien in Bal Anand)</p> <p>Organisatie (10)(2e) heeft er geen structuur voor.</p>	<p>(10)(2e) geeft nu openheid van documenten bij verlating. WK kan nu meekijken en suggesties doen. WK kan ook besluiten op basis van de beschikbare informatie een kind niet voor te stellen.</p> <p>- again only paperwork.</p>	<p>Kinderen adopteren waar moeders naar zoeken?</p>
CWC	--	<p>Toewijzingsproces CWC is onduidelijk. Gaan kinderen alleen naar BA omdat dit dichtbij CWC is?</p> <p>Samenstelling CWC: verregaande beslissingen worden genomen door 'zwak' orgaan. (CWC Chembur heeft op dit moment twee leden i.p.v. 5)</p>

			<p>be better.</p> <p>Stop Bal Anand from Adoptions and make a home for unmarried mothers out of it. But give away the adoption license then. If there are children who indeed need placement- they can be placed through other existing agencies. There should be no direct link to adoption, when it comes to counselling of mothers. No direct link to any agency. No conflict of interest.....and that a child would need to be placed should be seen as a sad failure of the Home for unmarried mothers. There should be no incentive to place a child for adoption. But I m realistic enough, that there will be cases, were a placement maybe necessary.</p>	
Financiën	<p>(10)(2e) wil dat WWT minder afhankelijk van WK wordt</p> <p>So is she now dependent on WK? Yes or no?</p> <p>Zelf fondsen werven</p> <p>Yes, with the very bad agency WHFC.</p> <p>Vaste adoption fees</p> <p>This is the CARA rule...and actually VERY BAD. The fee</p>
