

RE: Request of additional information to complete your tender

[REDACTED]@opgroeien.be>

Dear [REDACTED]

Thank you so much for this additional information.

Bear in mind that the budgetary limitation within the call for tender is still applicable and that the expansion of budgetary resources is unfortunately not a certainty.

However, the additional information provides us a clearer understanding of the estimated costs by CHIP to cover the entire package of assessments.

We will further assess the received tenders and get back to you as soon as possible.

Warm regards,

[REDACTED]

Onderwerp: Re: Request of additional information to complete your tender

Dear [REDACTED]

Thank you for your interest in our submitted tender and for this opportunity to expand the work and related budget in order to cover your needs and expectations.

As per your request, and based on the total number of countries you wish to find search partners in (21) and the average of 2-3 partners in each country that you are considering for assessment, we have devised the **attached adjusted budget** .

This updated budget covers a much higher number of potential partners, while also looking at an economy of scale, given the increasing knowledge of profiles and requirements we expect to develop as we move forward with the assessments of partners. It also takes into account the expected reality that some assessments will take us more time, while others may require or only allow for a very limited assessment for a number of reasons.

We have also increased the number of assessments, which we would undertake *pro bono* , and would expect the deliberations to be undertaken over a more limited period of time, based on your prior review of our reports, which would enable executive discussions and decisions.

Thus, please find attached our new financial offer and we look forward to hearing back from you soon.

Many thanks and kind regards,

[Redacted]
Regional Director

Dear [Redacted],

Many thanks for applying to this call for tender! Meanwhile, we have gone through the technical and financial proposal of CHIP.

Due to the budgetary limitation of the tender, I have read that the proposed budget from CHIP is applicable to the assessment of **12 potential partners (+ 2 partners pro bono)** .

Would you be able to provide me a detailed budget proposal from CHIP for the **phase 3 assessment** of (on average) 3 organisations per country applicable (x 21)?

Many thanks for this additional information.

Warm regards,
